Astrobee: Autonomous free flying robots for the ISS

Roberto Carlino

Science Fiction Inspires Real Science

Science Fiction Inspires Real Science

Astrobee on the ISS

Astrobee free flyer

- 1 Provide a microgravity robotic research facility in the ISS, which will replace the existing SPHERES facility
- 2 Provide remotely operated mobile camera views of the ISS to enhance the situation awareness of mission control
- 3 Perform mobile sensor tasks in the ISS

Astrobee Guest Science Payloads

Guest Science: JSC REALM RFID tag reader

30-0662: WHC Pre-Treat Tank (E-K) Wanted Poster
Page 1 of 1

WANTED

Pre-Treat Tank and
E-K Hose

Figure 1 – Pre-Treat Tank (E-K)

and report location to MCC-H.

Identification:
Part Name: Pre-Tank (E-K)
Part Number: 10146.4267.000-01
Serial Number: 809048
Barcode: 00142920J

Guest Science: JSC REALM RFID tag reader

- RFID reader allows inventory and searches for logistics reduction
- Launching on NG-12

Guest Science: Stanford Gecko Adhesive Gripper

- Gecko-inspired end-effector for gripping of smooth surfaces
- Launched in 2019

Guest Science: Astrobotic SoundSee

- Microphone array that creates a sound map used to monitor health of on-board systems
- Launched in 2019

SoundSee payload

Heat maps

Astrobee Status

Fleet of AstroBees

Dock Station and 3 Astrobees onboard the ISS.

- **Bumble**
- **Honey** (down for repair)
- **Queen**

Bsharp and WannaBee
at NASA Ames.

ISAAC Camera survey

Integrated System for Autonomous and Adaptive Caretaking (ISAAC)

Survey Demo

Abiola Akanni, Oleg Alexandrov, Laura Barron, J Benton,
Maria Bualat, Brián Coltin, Janette Garcia, Kathryn
Hamilton, Lewis Hill, Marina Moreira, Robert Morris, Nicole
Ortega, Joseph Pea, Misha Savchenko, Khaled Sharif, Trey
Smith, Ryan Soussan

June 2021

Future tasks

Astrobee will help prove out the concept of “Caretaker Robots” for future Intra-Vehicular Robotic (IVR) exploration (Lunar Gateway).

Monitor the environment

- Ensure crew health and safety

- Maintain vehicle health and longevity

- Sound levels, radiation, air quality

Inspection functions can include:

- Spot checks

- Surveys (RFID localization)

- Localizing problems

With dexterous robotic manipulation, future tasks could include:

- Maintenance

- Repair

- Cargo transfer

NASA Astrobee Game

Zero Robotics student competition

Conclusions

Astrobee will allow guest scientists to test new technologies on the ISS

Improves crew safety, by monitoring the environment

A lot of uses and tasks to help astronauts (essential for future long term Space Exploration)

Currently **Bumble and Queen** on the ISS.

Dozens of guest science ISS experiments in progress

Thanks very much for the attention!

Fun
with
Robots

Any questions?
